Subject: ADP April 2022: Boat ramp Waterfront Park Mapua archaeological assessment

Kia ora Deb,

Thank you for this assessment.

Having read through the document I believe that you and TDC have undertaken due diligence in terms of the assessment of archaeological potential/risk associated with the construction of a new boat ramp along the southern boundary of Waterfront Park in Mapua.

The research within this assessment indicates there is minimal risk of disturbing any in situ soils containing archaeological deposits. Heritage New Zealand Pouhere Taonga therefore accepts your recommendation that the work proceed under an Accidental Discovery Protocol as provided with the previous email. In the unlikely event that an unidentified archaeological site is located during works please do contact Heritage New Zealand Pouhere Taonga (HNZPT) as soon as possible.

HNZPT also reiterates your comment that the report presents an archaeological assessment of the proposed area of work, but it is only that. The land and wider vicinity may also be of significance to the iwi through tradition or association; thus the report does not constitute an assessment of Māori values.

Nga mihi nui
Christine

Subject: Boat ramp Waterfront Park Mapua archaeological assessment

Kia ora Andrew and Graham

Please find attached assessment for the boat ramp at Waterfront Park.

The report presents an archaeological assessment of the proposed area of work, but it is only that. The land and wider vicinity may also be of significance to the iwi through tradition or association; this report does not constitute an assessment of Māori values.

Nga mihi
