

Change of Details or Significant Amendments to your Food Business

Section 51 & 81 Food Act 2014

This form is to notify us of any changes in details or significant amendments to your food business, for example a change of premises, trading name, or the scope of your operation.

If you are a new operator of a business and make changes to the types of food sold or staff changes, or the old operator takes their Food Control Plan with them, then a **New** registration application is required. Use the Application to Register a Food Business form for that. It is available on our website.

If the changes mean that a new certificate needs to be issued, there is a charge of \$116.00. If the changes are minor such as a new phone number or email address there is no charge.

If you are changing the scope of your operation by making or selling different types of food, this may result in your operation being a different level of National Programme or requiring a Food Control Plan. You should check the 'Where do I fit?' tool available on the Ministry Primary Industries website www.mpi.govt.nz
