

APPENDIX 1: 4.12.23 Email from Rory Langbridge RMM re building colours

Dear Mark,

The colour that is shown on the architectural plans is indicative, as it is not specified precisely anywhere.

In our assessment we (RMM) state that we feel the scout building should complement the existing building in the Mapua precinct. The colour shown in the image we feel is **complementary** (while a tonal change appears to exist, this could be as a result of either sun angles/shade or a shade variation) both outcomes are considered to be appropriate and not material to our assessment of effects.

I trust this satisfies the concerns raised by the TDC officer

Cheers

Rory
