

16.11 AIRPORT PROTECTION

Refer to Rule sections 16.3, 17.1, 17.2, 17.5, 17.6, 17.8.

16.11.1 Scope of Section

This section provides specific rules relating to height of objects in the vicinity of the District's two airports. Resource consent applications must be accompanied by information stated in Chapter 19, as relevant, particularly 19.2.4.

16.11.2 All Zones

16.11.2.1 Permitted Activities (All Zones)

Any structure or vegetation which is within an area shown on Schedule 16.11A or 16.11B as subject to Airport Height Control, is a permitted activity that may be undertaken without a resource consent, if it complies with the following conditions:

- (a) The activity does not exceed the height limits shown on Schedule 16.11A or 16.11B.

Note: The height limits are referenced to zero metres at each end of the runway. The topography of the site will thus affect the interpretation of the height limits shown.

16.11.2.2 Restricted Discretionary Activities (All Zones)

Any structure or vegetation which is within an area shown on Schedule 16.11A or 16.11B as subject to Airport Height Control and which does not comply with the conditions of rule 16.11.2.1, is a restricted discretionary activity.

A resource consent is required. Consent may be refused, or conditions imposed, only in respect of the following matters to which the Council has restricted its discretion:

- (1) The effects on the safe and efficient operation of the airport and airport users.
- (2) Any physical and visual impact of the structure or vegetation on the matters stated in (1).
- (3) The duration of the consent.
- (4) The timing of reviews of conditions and purpose of reviews (Section 128 of the Act).
- (5) Financial contributions, bonds and covenants in respect of the performance of conditions, and administrative charges (Section 108).

Note: The height limits are referenced to zero metres at each end of the runway. The topography of the site will thus affect the interpretation of the height limits shown. An applicant will be required to demonstrate the extent to which the proposal exceeds the height provisions, as noted in 16.11.2.1.

16.11.20 Principal Reasons for Rules

Control of Height in Vicinity of Airports

The rule provides for the long-term protection of the existing physical resources of the two airports in the District. The rules are based on Civil Aviation Authority Circulars.

SCHEDULES

Schedule 16.11A: Areas to which Height Control Provisions Apply – Motueka Airport

CL20A
U69
7/22

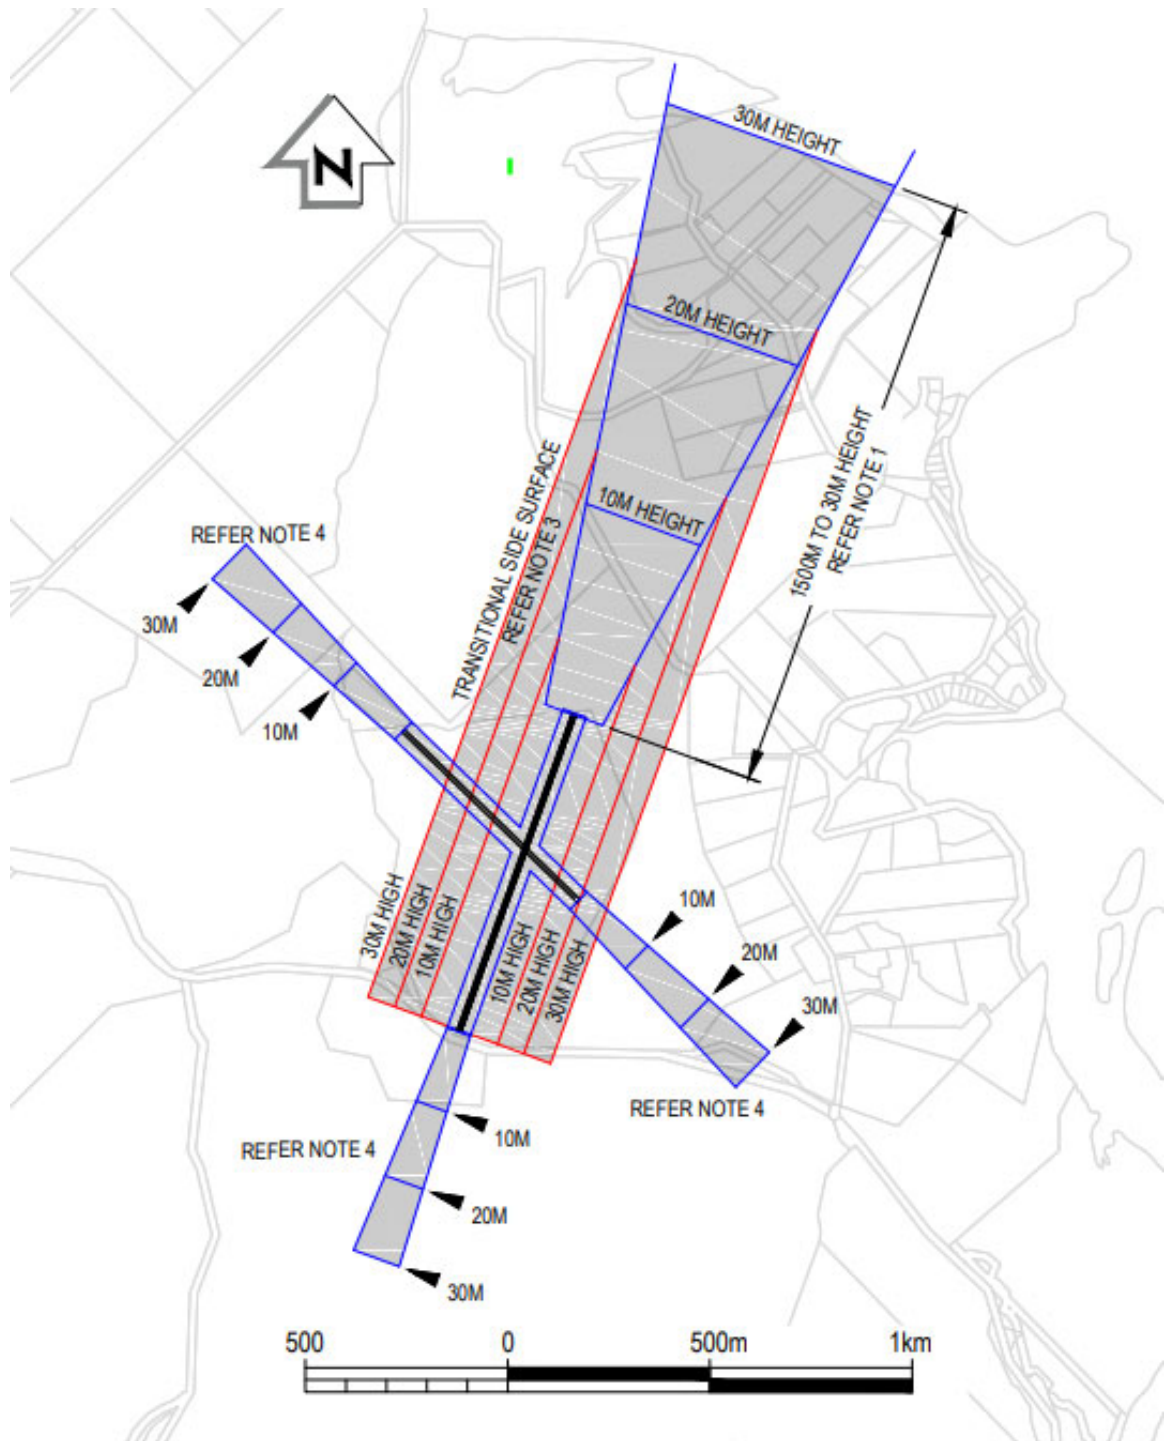

Notes:

1. Obstacle limitation surface continues out to 15 km horizontally from the end of the runways. Illustrated is the first 1.5 km. Inclination 1:50. Sides splay out at 1:6.6.
2. The limitation on height is based on each end of the runway being at reference level 0. Topographic variations above and below this reference level must be taken into account in applying the relevant rules.
3. Transitional side surface continues out to 315 metres from the outside edges of the runway strip. Illustrated is the first 210 metres. Inclination 1:7.
4. The runways and runway strips shown in the diagram above are as they existed in January 1999, before extensions were made at both ends of the paved runway. The length of the shown runways is 724 metres. The northern end of the runways is 82 metres from the road boundary angle to the northeast. The combined runway strips are 50m wide with the middle line located 10 metres on the southeast side from the centreline of the paved runway. (Include annotation CL20A 7.22).

16.12 BORE CONSTRUCTION OR ALTERATION

Refer to Policy set 30.1.

C12 7/08
Op 8/14

16.12.1 Scope of Section

This section deals with the construction or alteration of bores throughout the District. Relevant policies are in Chapter 30 and rules about the taking of water from bores are in Chapter 31. Information required with resource consent applications is detailed in Chapter 19.

C12 7/08
Op 8/14

Advice Note: The Resource Management (National Environmental Standard for Freshwater) Regulations 2020 may apply to some activities, including farming activities and activities in or near wetlands and rivers. The National Environmental Standard may alter the activity status of an activity and impose additional standards, information requirements, matters for assessment and criteria. Please ensure you have met any requirements in the regulations in addition to those in this plan.

NES-FW (ca)

16.12.2 Bore Construction or Alteration

16.12.2.1 Permitted Activities (Bore Construction or Alteration)

The construction or alteration of a bore is a permitted activity and may be undertaken without the need for a resource consent, if it complies with the following conditions:

- (a) The bore extends to a depth of no more than 8 metres below the natural ground level.
- (b) The bore is not within 20 metres of the bank of any watercourse.
- (c) The bore is not within 20 metres of any stopbank measured from the landward limit of the toe of the stopbank.
- (d) The bore is not within any floodway of any river.
- (e) The bore is not drilled.
- (f) The bore is not within 20 metres of any domestic wastewater treatment and disposal system.
- (g) The bore is not in the coastal margin of the Hau Plains or Delta zones or in the coastal margin of the Marahau Zone.
- (h) The bore is sited, lined and capped to prevent surface water or other contaminants entering the bore.

Note: The construction of a bore as a permitted activity does not confer any right to take water.

16.12.2.2 Controlled Activities (Bore Construction or Alteration)

The construction or alteration of a bore that does not comply with the permitted conditions of rule 16.12.2.1 is a controlled activity, if it complies with the following conditions:

- (a) The bore is in a water management zone listed in Figure 16.12A and spacing between the proposed bore and any existing bore complies with the distances specified, but setbacks do not apply to bores used only for monitoring water quality or water quantity.

C12 7/08
C13 12/08
Op 8/14

- (b) The bore is not in the coastal margin of the Hau Plains or Delta zones or in the Marahau Zone.
- (c) The bore is not within 20 metres of the bank of any watercourse.
- (d) The bore is not within 20 metres of any stopbank measured from the landward limit of the toe of the stopbank.
- (e) The bore is not within any floodway of any river.
- (f) The bore is not within 20 metres of any domestic wastewater treatment and disposal system.

Water Management Zones	Depth of Bore (metres)	Minimum Bore Casing (metres)
Moutere Zones		
Southern and Coastal Groundwater zones within 500 metres of MHWS	<120	60
	>120	120
Eastern and Western Groundwater zones	<120	30
	>120	120
Footnote:		
① Setback requirements do not apply to individual bores in the same bore field.		
Note:		
(1) Where both bores are only for domestic water supply, the setback is 5 metres between bores and 2.5 metres from property boundaries, or is no more than 5 metres from any existing bore that is being replaced.		

C12 7/08
Op 8/14C24 12/08
Op 8/14

A resource consent is required and may include conditions on the following matters over which the Council has reserved control:

C12 7/08
Op 8/14

- (1) Bore logs, including the taking of rock samples.
- (2) Minimum casing depth, placement within the bore, and type of bore screen.
- (3) Pump tests, including constant discharge, step drawdown, static and dynamic tests, and water quality analyses, including a step drawdown test for bores greater than 60 metres deep.
- (4) Method of drilling, bore casing and protection of groundwater.
- (5) Location, depth and spacing of the bore, except as provided for in Figure 16.12A.
- (6) Monitoring mechanisms, including provision of access for measuring water level, water pressure or water quality, and provision made for water meter installation.
- (7) Degree of compliance with NZ Standard for Drilling of Soil and Rock: NZS 4411:2001 (or subsequent versions).
- (8) Measures to ensure conservation of water, including sealing artesian bores.
- (9) Sealing or decommissioning the bore.
- (10) The duration of the consent (Section 123 of the Act), timing of reviews, and the purposes of reviews (Section 128 of the Act).
- (11) Financial contributions, bonds and covenants in respect of the performance of conditions and administration charges (Section 108 of the Act).

16.12.2.3 Restricted Discretionary Activities (Bore Construction or Alteration)

C12 7/08
Op 8/14

The construction or alteration of a bore that does not comply with the controlled conditions of rule 16.12.2.2 is a restricted discretionary activity, if it complies with the following conditions:

- (a) Where the bore is in the Moutere Groundwater zones, the bore complies with the setback distances from existing bores and casing specifications specified for these zones in Figure 16.12A.

A resource consent is required. Consent may be refused or conditions imposed, only in respect of the following matters to which Council has restricted its discretion:

- (1) The particular characteristics of the aquifer, including permeability of the aquifer, water yield required from the bore, water yields from existing bores, potential impact on water levels in adjacent bores, and potential impact on river or spring flows.
- (2) Bore logs, including the taking of rock samples.
- (3) Minimum casing depth placement within the bore and type of bore screen.
- (4) Pump tests, including constant discharge, step drawdown, static and dynamic tests and water quality analyses, including a step drawdown test for bores greater than 60 metres deep.
- (5) Method of drilling, bore casing and protection of groundwater.
- (6) Location, depth and spacing of the bore, including as provided for in Figure 16.12A.
- (7) Monitoring mechanisms, including provision of access for measuring water level, water pressure or water quality, and provision made for water meter installation.
- (8) Degree of compliance with NZ Standard for Drilling of Soil and Rock: NZS 4411:2001 (or subsequent versions).
- (9) Measures to ensure conservation of water, including sealing artesian bores.
- (10) Sealing or decommissioning the bore.
- (11) The duration of the consent (Section 123 of the Act), timing of reviews, and the purposes of reviews (Section 128 of the Act).
- (12) Financial contributions, bonds and covenants in respect of the performance of conditions and administration charges (Section 108 of the Act).

16.12.2.4 Non-Complying Activities (Bore Construction or Alteration)

C12 7/08
Op 8/14

The construction or alteration of a bore that does not comply with the restricted discretionary conditions of rule 16.12.2.3 is a non-complying activity.

A resource consent is required. Consent may be refused or conditions imposed.

16.12.20 Principal Reasons for Rules

Shallow bores are unlikely to have any significant adverse effects and the rules permit such activities while deeper bores or those near stopbanks or watercourses require consents. Council requires information about and from the construction of bores to assist in gathering more information about the District's water resources and to ensure such activities do not cause adverse effects.

In particular, the adverse drawdown effects of deep bores in the Moutere Groundwater Zones are potentially very significant in an area of very low transmissivity where drawdown can extend over a wide area. The setback thresholds provide a limit to the concentration of deep bores and ensure interference effects are kept to a minimum.

C12 7/08
Op 8/14

16.13 HISTORIC HERITAGE

C16 9/09
Op 8/12

Refer to Policy set 10.2.

16.13.1 Scope of Section

This section deals with any land use activity that may have an effect on values associated with heritage buildings and structures, protected trees, and cultural heritage sites in the Tasman District. Schedule 16.13A records heritage buildings and structures, and Schedule 16.13B lists protected trees. All cultural heritage sites, including archaeological sites and wāhi tapu or wāhi tapu areas, that are known to Council are included in a database. This database forms the basis of Schedule 16.13C which includes those sites listed for protection through Plan provisions. Rules in this section relate to the scheduled sites or items. Scheduled sites or items are also shown on the planning maps.

16.13.2 Minor Repair or Addition to Heritage Building or Structure

C16 9/09
Op 8/12

16.13.2.1 Permitted Activities (Minor Repair to Heritage Building or Structure)

Minor repair of any heritage building or structure listed in Schedule 16.13A is a permitted activity that may be undertaken without a resource consent, if it complies with the following conditions:

- (a) The work is confined to conservation, reassembly, reinstatement, repair or stabilisation of the original character, fabric, or detailing of the heritage building or structure.
- (b) The work is carried out to the same design and using original or similar materials to those originally used and will not detract from the character and appearance of the heritage building or structure, which led to its protection in the Plan.
- (c) The work does not involve the demolition, removal, or destruction of any part of any heritage building or structure listed in Schedule 16.13A.

16.13.2.2 Restricted Discretionary Activities (Minor Repair or Addition to Heritage Building or Structure)

Any:

- (i) minor repair to any heritage building or structure listed in Schedule 16.13A that does not comply with the permitted conditions of rule 16.13.2.1; or
- (ii) addition to any heritage building or structure listed in Schedule 16.13A;

is a restricted discretionary activity.

A resource consent is required. Consent may be refused, or conditions imposed, only in respect of the following matters to which the Council has restricted its discretion:

- (1) The impact the proposal has on the integrity and value of the heritage building or structure, including the nature, form and extent of the proposed development, alteration or change.
- (2) The importance attributed to the heritage building or structure by the wider community, including categorisation of the item in the New Zealand Heritage List.
- (3) The importance of land surrounding the heritage building or structure.

- (4) The degree to which the proposal will promote heritage conservation.
- (5) Effect on amenity values, especially visual amenities.
- (6) Whether the addition is in sympathy with the heritage building or structure's original design and materials.
- (7) Minimising internal changes to listed buildings where internal features are listed as contributing to the historic or architectural interest.
- (8) The duration of the consent (Section 123 of the Act) and the timing of reviews of conditions and purpose of reviews (Section 128).
- (9) Financial contributions, bonds and covenants in respect of the performance of conditions, and administrative charges (Section 108).

Note: The rule only applies in respect of external alterations to the building or structure except where the interior has been specifically listed in the Schedule.

16.13.3 Destruction or Removal of Heritage Building or Structure

C16 9/09
Op 8/12

16.13.3.1 Restricted Discretionary Activities (Destruction or Removal of Heritage Building or Structure)

Destruction or removal of any Category II heritage building or structure in Schedule 16.13A is a restricted discretionary activity.

A resource consent is required. Consent may be refused, or conditions imposed, only in respect of the following matters to which the Council has restricted its discretion:

- (1) Any immediate or cumulative effects of loss of the item on the heritage values of the neighbourhood and district.
- (2) With respect to removal, the extent to which the heritage value is attached to the site, and whether the choice of the new site mitigates the effects of removal by making the building more visible or accessible.
- (3) The ability of the applicant to reasonably use the site without demolition or removal of the building or structure.
- (4) The duration of the consent (Section 123 of the Act) and the timing of reviews of conditions and purpose of reviews (Section 128).
- (5) Financial contributions, bonds and covenants in respect of the performance of conditions, and administrative charges (Section 108).

16.13.3.2 Non-Complying Activities (Destruction or Removal of Heritage Building or Structure)

Destruction or removal of any Category 1 heritage building or structure in Schedule 16.13A is a non-complying activity.

A resource consent is required and may include conditions.

16.13.4 Trimming or Pruning of Protected Tree

C16 9/09
Op 8/12

16.13.4.1 Permitted Activities (Trimming of Protected Tree)

Minor trimming or maintenance of any protected tree listed in Schedule 16.13B is a permitted activity that may be undertaken without a resource consent, if it complies with the following conditions:

- (a) That the work is undertaken in accordance with accepted arboricultural tree care standards.

Means of Compliance

The current arboricultural tree standard used by the Council is the American National Standard for Tree Care Operations 2008 – ANSI A300 (Part 1) - 2017 Pruning.

16.13.4.2 Controlled Activities (Pruning of Protected Tree)

Pruning and trimming of any protected tree listed in Schedule 16.13B is a controlled activity, if it complies with the following conditions:

- (a) The work is undertaken in accordance with expert arboricultural advice.
- (b) The work does not result in the destruction or removal of the tree.
- (c) The pruning work is not in the root zone of the tree.

A resource consent is required and may include conditions on the following matters over which the Council has reserved control:

- (1) Location, manner and timing of pruning and trimming.
- (2) The duration of the consent (Section 123 of the Act) and the timing of reviews of conditions and purpose of reviews (Section 128).
- (3) Bonds and covenants in respect of the performance of conditions, and administrative charges (Section 108).

Non-Notification

Applications for resource consent for an activity under this rule will be decided without public notification and without limited notification.

16.13.5 Destruction or Removal of Protected Tree

C16 9/09
Op 8/12

16.13.5.1 Restricted Discretionary Activities (Destruction or Removal of Protected Tree)

Destruction or removal of any Category B or C protected tree listed in Schedule 16.13B is a restricted discretionary activity.

A resource consent is required. Consent may be refused, or conditions imposed, only in respect of the following matters to which the Council has restricted its discretion:

- (1) Whether the tree is causing or likely to cause serious damage to buildings, persons or services.
- (2) The extent to which any hardship or nuisance caused by the tree can be mitigated.

- (3) Whether any compensatory tree planting or landscape work is necessary on site and whether the tree could be relocated.
- (4) The duration of the consent (Section 123 of the Act) and the timing of reviews of conditions and purpose of reviews (Section 128).
- (5) Bonds and covenants in respect of the performance of conditions, and administrative charges (Section 108).

16.13.5.2 Non-Complying Activities (Destruction or Removal of Protected Tree)

Destruction or removal of any Category A protected tree listed in Schedule 16.13B is a non-complying activity.

A resource consent is required and may include conditions.

16.13.6 Cultural Heritage Sites

C16 9/09
Op 8/12

16.13.6.1 Permitted Activities (Land Use)

Any land use activity in any zone in the District is a permitted activity that may be undertaken without a resource consent, if it complies with the following conditions:

Cultural Heritage Sites

EITHER

- (a) There is no listed cultural heritage site or precinct as listed in Schedule 16.13C present on any part of the land.
- OR
- (b) There is a listed cultural heritage site present on any part of the land and the proposed activity will not modify, damage or destroy it.
- OR
- (c) The activity is the maintenance and repair of a listed cultural heritage site.
- OR
- (d) There is a listed cultural heritage site or precinct present on any part of the land; and:
 - (i) an authority from Heritage New Zealand Pouhere Taonga has been obtained under the Heritage New Zealand Pouhere Taonga Act 2014 to modify, damage or destroy a cultural heritage site; or, written evidence from Heritage New Zealand Pouhere Taonga has been obtained to show that such an authority is not considered necessary; and
 - (ii) the listed cultural heritage site is not a wahi tapu site or highly significant site as identified in Schedule 16.13C.

Notes:

1. The modification, damage or destruction of any cultural heritage site that is an archaeological site under the Heritage New Zealand Pouhere Taonga Act 2014 must be authorised by an authority from Heritage New Zealand Pouhere Taonga.
2. If any cultural heritage site is exposed during site works then all site works must cease immediately. The areas must be immediately secured in a way that any artefacts or remains are untouched. Manawhenua Iwi, Heritage New Zealand Pouhere Taonga, Department of Conservation, and Tasman District Council must be notified, and the Police in the case of human remains, that an archaeological site has been exposed, so that appropriate action can be taken. This includes such persons being given reasonable time to record and recover archaeological features discovered before work may recommence on the site.

16.13.6.2 Controlled Activities (Land Use)

C16 9/09
Op 8/12

Any land use activity that does not comply with the permitted conditions of rule 16.13.6.1 is a controlled activity, if it complies with the following conditions:

Cultural Heritage Sites

- (a) An authority from Heritage New Zealand Pouhere Taonga has been obtained under the Heritage New Zealand Pouhere Taonga Act 2014 to modify, damage or destroy a cultural heritage site; or, written evidence from Heritage New Zealand Pouhere Taonga has been obtained to show that such an authority is not considered necessary; and
- (b) Where the listed cultural heritage site is a wahi tapu site, manawhenua iwi have given their written approval to the proposed activity as an affected party.

Notes:

1. An assessment may be required in accordance with requirement 19.2.1.14.
2. Any matter necessary to ensure the appropriate management, protection or enhancement of a cultural heritage site.

A resource consent is required and may include conditions on the following matters over which Council has reserved control:

Cultural Heritage Sites

- (1) Any matters raised in a report prepared in accordance with requirement 19.2.1.14.
- (2) Any matters raised in the authority granted by Heritage New Zealand Pouhere Taonga under the Heritage New Zealand Pouhere Taonga Act 2014 that are relevant to the control of the design and construction of the proposed activity.
- (3) Any matter necessary to ensure the protection of a cultural heritage site.
- (4) Any matter necessary to ensure kaitiakitanga over a wāhi tapu site or wāhi tapu area.
- (5) Any matters relevant to ensuring the appropriate management of a previously unknown cultural heritage site that is discovered during any land disturbance activities associated with the proposed activity.

16.13.6.3 Restricted Discretionary Activities (Land Use)

C16 9/09
Op 8/12

Any land use activity that does not comply with the controlled conditions of rule 16.13.6.2 is a restricted discretionary activity.

A resource consent is required. Consent may be refused or conditions imposed, only in respect of the following matters to which Council has restricted its discretion:

Cultural Heritage Sites

- (1) Any matters raised in a report prepared in accordance with requirement 19.2.1.14.
- (2) Any matter necessary to ensure the appropriate management, protection or enhancement of a cultural heritage site.
- (3) Any matter necessary to ensure kaitiakitanga over a wāhi tapu site or wāhi tapu area.

- (4) Any matters relevant to ensuring the appropriate management of a previously unknown cultural heritage site that is discovered during any land disturbance activities associated with the proposed activity.
- (5) Any matter relevant to the absence of an authority from Heritage New Zealand Pouhere Taonga under the Heritage New Zealand Pouhere Taonga Act 2014.

16.13.20 Principal Reasons for Rules

C16 9/09
Op 8/12

The heritage rules are arranged in a hierarchy, with the most stringent rules for the most important items.

Demolition or Removal of Built Heritage and Protected Trees

A resource consent for the removal, demolition and destruction of the most important heritage items gives the Council the opportunity to assess the value of the heritage item and what alternatives, including a heritage order, may be appropriate.

Alterations or Additions to Heritage Buildings or Structures

The special character of listed heritage buildings and structures can be destroyed or impaired by unsympathetic additions or alterations. The proposed rule enables Council to regulate proposals and provide advice where necessary. The discretionary activity status enables modifications to heritage building and structures to be assessed and, if necessary, declined.

Protected Heritage Trees

To ensure trees are not damaged by poor arboricultural practice, it is necessary to seek expert advice before pruning or trimming protected trees. The Council will assist with such advice.

Minor Repair of Heritage Buildings

Minor repair of heritage buildings and structures is provided as of right as this is recognised as important for the survival of the building. Protection only applies to the exterior of buildings unless “includes interior” is noted in Schedule 16.13A.

Accidental Damage by Fire, Earthquake, Flooding, Landslip

Natural hazards can occur which destroy the heritage values of listed items. There is often a need to clear debris and remove hazards after such events.

Cultural Heritage Sites

The rules require for any land use activity that the modification, damage or destruction of any cultural heritage site, including archaeological sites and wāhi tapu and wāhi tapu areas, is authorised by an authority approved by Heritage New Zealand Pouhere Taonga. Consent is required where the known site is more recent than 1900. Known sites are listed in Schedule 16.13C and are shown on the planning maps. These are effective ways of enhancing the protection of the values of known sites and ensuring that any site discovered, for example, through land disturbance, is also managed through this approval process.

SCHEDULES**Schedule 16.13A: Heritage Buildings and Structures**C16 9/09
Op 8/12**Note:** A listing number “H...” indicates a Council listing rather than a New Zealand Heritage List listing.

Schedule 16.13B: Protected TreesC16 9/09
Op 8/12

Refer to sections 16.13.4 and 16.13.5.

Note:

1. Trees have been inspected and scored on the attributes of size, age, health and historical associations using the Standard Tree Evaluation Method (STEM). See Schedule 10B and Council's Tree Register for further details.
2. In Golden Bay some trees are identified by grid reference only.

Footnote: ¹ Means the site is on the New Zealand Heritage List of Wāhu Tapu, for Tasman District, under the Heritage New Zealand Pouhere Taonga Act 2014.						

Schedule 16.13D: Criteria for the Assessment of Significance

C16 9/09
Op 8/12

These criteria have been applied to assess the significance of cultural heritage sites listed within Schedule 16.13C. Those sites considered to be highly significant are based on the criteria sourced from ‘Heritage assessment of archaeological sites in the Tasman District’, Karen Greig 2007.

HERITAGE ASSESSMENT CRITERIA	
1. Archaeological or other scientific value	Does the site contain archaeological or other scientific evidence that has the potential to contribute important information about the District’s and/or New Zealand’s past?
2. Cultural values	<p>The importance of the site to tangata whenua of Tasman District as a wāhi tapu or historic place in terms of the Heritage New Zealand Pouhere Taonga Act 2014. (Assess cultural values in terms of local iwi knowledge.)</p> <p>Does the site have strong or special associations with a significant cultural group for social, amenity, cultural, spiritual, symbolic or commemorative reasons?</p>
3. Historic values	<p>The extent to which the site is associated with important or representative aspects of the District’s or the nation’s history.</p> <p>Is the site associated with events, persons or ideas of importance to the District or the nation?</p> <p>The potential of the site to provide knowledge of the District’s or the nation’s history.</p> <p>The importance of the site in relation to early periods of New Zealand’s settlement.</p>
4. Group values	The extent to which the site is associated with other cultural and/or natural features in the surrounding landscape that together contribute to a strong ‘sense of place’ and/or an important understanding of New Zealand’s cultures or history.
5. Technological values	The potential of the site to provide knowledge about technology, technical accomplishment and landscape design.
6. Architectural values	The potential of the building or structure to provide knowledge about the region’s or the nation’s architecture.
