### 1 Summary

- 1.1 The Dog Control Act 1996 (DCA) Section 10A requires territorial authorities to publicly report on dog control policies and practices for each financial year. This report contains the information required under the DCA for the year 1 July 2021 to 30 June 2022. It is a requirement of the DCA that a copy of this report be made publicly available once adopted.
- 1.2 Dog numbers have increased and become more urbanized than ever before.
- 1.3 Three more people were disqualified from dog ownership, one has since left the district.
- 1.4 Better compliance with dog registration has been noted. This is in large part due to the persistence of staff in chasing those that have not registered their dogs.
- 1.5 Complaint numbers have fallen, notably those related to barking. This could be due to people being home with their dogs during pandemic restrictions.
- 1.6 Customer satisfaction with dog control is still remarkably high at 84%.
