

Water Shortage Direction

Section 329 of the Resource Management Act 1991

It is important Consent holders are familiar with Resource Consent conditions.

Stage 3 Rationing which is a 50% cut for authorised weekly usage will **commence** from **Monday 25 March 2024** for the holders of consents who are in the following Water Management Zone:

Motupiko

Watering of lawns or decorative gardens is not permitted for any water user situated in water management zones where rationing is in effect. This excludes users of Council managed reticulated water supply (where alternative restrictions will apply).

Stock drinking water is not affected by these water restrictions.

The position will be reviewed at the next meeting of the Dry Weather Taskforce on 26 March 2024.
